Sprint 2

User Stories	Story Points	Priority
As a user (4 points), I can create, delete, and complete life admin tasks	5	High
As a user (3 points), I can view upcoming and overdue tasks sorted by due dates	3	Medium

As a user (2 points), I can search for tasks by title instead of manually scanning long lists	3	Medium
As a user (2 points), I get clear feedback from the UI when tasks are loading or when no tasks exist, so the app never feels broken or confusing.	5	High

Sprint 3

User Stories	Story Points	Priority
As a user (5 points), I can upload a PDF/image into my folder (<uid>/file).	5	High
As a user (3 points), I can see a documents list showing filename + upload timestamp.	3	High
As a user (5 points), I can attach a document to a task and see the document under that task.	5	Medium
As a user (3 points), I can view/download an uploaded document from the UI.	3	Medium
As a user (2 points), I can delete a document	2	Medium

Sprint 4

User Stories	Story Points	Priority
As a user, after uploading a document, I receive an AI-suggested deadline and title based on extracted text.	5	High
As a user, I can confirm/edit the AI-extracted deadline before saving it.	3	High

As a user , once a due date exists, the app auto-creates reminders for 7 days before and 1 day before.	5	High
As a user, I receive email reminders when the reminder time is reached.	5	Medium

As a user, I can view reminder status (Scheduled/Sent) for tasks.	2	Medium
---	---	--------

Product Backlog:

- As a user (3 points), I am redirected to the dashboard after logging in.
- As a user (3 points), I can navigate from the dashboard to core task features.

Sanity Check:

We should be good, Sprint 4 is highly possible due to good progress in Sprint 1.
