

Sprint 1 Plan

Completion Date: 12/4/24

Goal: Complete secure authentication and dashboard features

Roles:

Shri: Full-Stack Developer, Product Owner

User Story 5, Dashboard Navigation

User Story 6, Dashboard Layout

MVP Cleanup

Uttkarsh: Full-Stack Developer

User Story 7, Dashboard security

User Story 8, Dashboard navigation post login

Algorithm Testing

MVP Cleanup

Arnesh: Full-Stack Developer, Scrum Master

User Story 1, secure sign-up

User Story 2, secure log in

MVP Cleanup

Raj: Front-End Developer

User Story 3, logout

User Story 4, authentication security

Algorithm Testing

User Stories/Tasks:

- **As a user (3 points), I can sign up for an account using my credentials**
 - Design signup form UI (inputs, validation messages) — 1–1.5 hrs
 - Client-side validation (email format, password rules) — 1 hr
 - Backend endpoint for signup — 1–1.5 hrs
 - Password hashing & storage — 0.5 hr

- Handle error states (duplicate email, weak password) — 0.5 hr
- Basic testing (happy + failure paths) — 0.5 hr
- **Total: ~4–5 hours**

- **As a user (4 points), I can log in to my account securely.**

- Login form UI — 0.5–1 hr
- Backend login endpoint — 1–1.5 hrs
- Password verification — 0.5 hr
- Session or JWT creation — 1 hr
- Secure cookie / token handling — 1 hr
- Error handling (invalid creds) — 0.5 hr
- Testing — 0.5 hr

■ **Total: ~6–7 hours**

- **As a user (2 points), I can log out of my account.**

- Logout button in UI — 0.25–0.5 hr
- Backend logout endpoint / token invalidation — 0.5–1 hr
- Clear cookies / local storage — 0.25 hr
- Redirect to login page — 0.25 hr
- Testing — 0.25 hr

■ **Total: ~1.5–2 hours**

- **As a user (4 points), my session is protected so only I can access my account.**

- Middleware to verify session/token — 1–1.5 hrs
- Protect backend routes — 1 hr
- Frontend auth state handling — 1 hr
- Handle expired/invalid sessions — 0.5 hr
- Testing unauthorized access cases — 1 hr

■ **Total: ~4.5–5 hours**

- **As a user (3 points), I am redirected to the dashboard after logging in.**

- Login success handler — 0.25–0.5 hr
- Route configuration — 0.5 hr
- Auth state update — 0.5 hr
- Edge cases (refresh, already logged in) — 0.5 hr
- Testing — 0.25–0.5 hr

■ **Total: ~2–2.5 hours**

- **As a user (4 points), I can see a dashboard layout for managing my tasks.**

- Dashboard page scaffold/layout — 1–1.5 hrs

- Navigation/sidebar/header — 1 hr
- Placeholder components for tasks — 1 hr
- Responsive styling — 0.5–1 hr
- UI polish — 0.5 hr
- **Total: ~4–5 hours**
- **As a user (4 points), I can access the dashboard only when logged in.**
 - Protected route wrapper — 1 hr
 - Redirect unauthenticated users — 0.5 hr
 - Handle loading/auth-check state — 0.5 hr
 - Backend enforcement (API protection) — 1 hr
 - Testing access control — 1 hr
 - **Total: ~4 hours**
- **As a user (3 points), I can navigate from the dashboard to core task features.**
 - Define core feature routes — 0.5 hr
 - Navigation links/buttons — 0.5 hr
 - Route wiring — 0.5 hr
 - Basic placeholder pages — 0.5–1 hr
 - Testing navigation flow — 0.5 hr
 - **Total: ~2.5–3 hours**

Scrum Board:

User Story	To-Do	In-progress	Done
As a user (3 points), I can sign up for an account using my credentials		Design signup form UI (inputs, validation messages) – 1–1.5 hrs Client-side validation (email format, password rules) – 0.5 hr Backend endpoint for signup – 1–1.5 hrs Password hashing & storage – 0.5 hr Handle error states (duplicate email, weak password) – 0.5 hr Basic testing (happy + failure paths) – 0.5 hr	

As a user (4 points), I can log in to my account securely.		Login form UI – 0.5–1 hr Backend login endpoint – 1–1.5 hrs Password verification – 0.5 hr Session or JWT creation – 1 hr Secure cookie / token handling – 1 hr Error handling (invalid creds) – 0.5 hr	
As a user (2 points), I can log out of my account.		Logout button in UI – 0.25–0.5 hr Backend logout endpoint / token invalidation – 0.5–1 hr Clear cookies / local storage – 0.25 hr Redirect to login page – 0.25 hr	

As a user (4 points), my session is protected so only I can access my account.		Login success handler – 0.25–0.5 hr Route configuration – 0.5 hr Auth state update – 0.5 hr Edge cases (refresh, already logged in) – 0.5 hr Testing – 0.25–0.5 hr	
As a user (3 points), I am redirected to the dashboard after logging in.		Dashboard page scaffold/layout – 1–1.5 hrs Navigation/sidebar/header – 1 hr Placeholder components for tasks – 1 hr	

		Responsive styling – 0.5-1 hr UI polish – 0.5 hr	
As a user (4 points), I can see a dashboard layout for managing my tasks.		Dashboard page scaffold/layout – 1-1.5 hrs Navigation/sidebar/header – 1 hr Placeholder components for tasks – 1 hr Responsive styling – 0.5-1 hr UI polish – 0.5 hr	
As a user (4 points), I can access the dashboard only when logged in.		Protected route wrapper – 1 hr Redirect unauthenticated users – 0.5 hr Handle loading/auth-check state – 0.5 hr Backend enforcement (API protection) – 1 hr Testing access control – 1 hr	
As a user (3 points), I can navigate from the dashboard to core task features.		Define core feature routes – 0.5 hr Navigation links/buttons – 0.5 hr Route wiring – 0.5 hr Basic placeholder pages – 0.5-1 hr Testing navigation flow – 0.5 hr
