

Life Admin Manager Developed by **Life Admin Manager Team**

Sprint 3 Plan

Date: 02/10/26

Goal: Implement full document management and task-document linking

Roles:

Shri: Full-Stack Developer, Product Owner

User Story 16 (Upload document)

MVP Cleanup

Uttkarsh: Full-Stack Developer, Scrum Master

User Story 17 (Documents list view)

Algorithm Testing

Arnesh: Full-Stack Developer

User story 19 & 20 (View/Download + Delete document)

UI Polish & Testing

Raj: Front-End Developer

User Story 18 (Attach document to task)

MVP Cleanup

User Stories/Tasks:

16. As a user (5 points), I can upload a PDF/image into my folder (<uid>/file).

- Design file upload UI (drag & drop or button) — 1 hr
- Integrate Supabase Storage bucket setup — 1 hr
- Implement file upload logic (store under <uid>/filename) — 2 hrs
- Store metadata in DB (filename, path, timestamp, userId) — 1 hr
- File validation (type + size limits) — 1 hr
- Testing (multiple uploads, wrong file type, large file) — 1 hr

■ **Total: ~7 hours**

17. As a user (3 points), I can see a documents list showing filename +

upload timestamp.

- Backend query to fetch user documents — 1 hr
- Create Documents List component — 1.5 hr
- Display filename + formatted timestamp — 1 hr
- Sort by newest upload first — 1 hr
- Empty state handling — 1 hr
- Testing (new user, many files, sorting check) — 1 hr

■ **Total: ~6.5 hours**

18. As a user (5 points), I can attach a document to a task and see the document under that task.

- Update DB schema (task_document relation table or docId in task) — 1 hr
- Build attach-document dropdown/modal in task UI — 1.5 hrs
- Backend update to link document to task — 1 hr
- Display attached document under task card — 1 hr
- Handle multiple attachments (if supported) — 1 hr
- Testing (attach, detach, task delete edge case) — 1 hr

■ **Total: ~5.5 hours**

19. As a user (3 points), I can view/download an uploaded document from the UI.

- Generate signed URL from Supabase Storage — 1 hr
- Add “View” and “Download” buttons — 1 hr
- Open preview in new tab — 1 hr
- Secure access (only current user files) — 1 hr
- Testing (PDF + image types) — 1 hr

■ **Total: ~5 hours**

20. As a user (2 points), I can delete a document.

- Build delete button in UI — 1 hr
- Backend delete (remove from storage + DB record) — 1 hr
- Update UI after delete — 1 hr
- Handle edge case (document attached to task) — 1 hr
- Testing — 1 hr

■ **Total: ~5 hours**
